BOND FORFEITURE CASE ON TRIAL AT SULLIVAN

It Grows Out of a Gold Brick Scheme Operated in Kentucky, with Arrest at Vincennes.

ORIGINAL CASE NOLLIED

Special to the Indianapolis Journal.
SULLIVAN, Ind., Jan. 26.—The gold brick case for trial in the circuit court today and all the evidence, including depositions from Governor Durbin, of Indiana, and Governor J. C. W. Beckham, of Kentucky, were heard. The argument will be made to-morrow.

The cases are suits for the money on bond for forfeiture proceedings, growing out of a gold brick scheme operated by William Roberts and Charles Jerome, with William H. Brevoort, one of Knox county's wealthiest farmers, as a victim, and a similar offense committed in Kentucky. Jerome and Roberts were arrested while trying to escape after swindling Brevoort, and were released on \$5,000 bond, which they gave in cash.

Before they were released, however, Governor Beckham issued a requisition on Governor Durbin for these two men for an offense committed in Kentucky. On this requisition the men were arrested and gave bond for \$5,000 each, with John F. Miller, of Vincennes, and Mark Gumbert, of Evansville, as sureties. The men were released and the case was nollied. The other bond, that in the Kentucky case, was forfeited by law and the money collected. Miller and Gumbert objected to paying the bond on the ground that, since the State of Kentucky no longer wanted these men, there was no reason for forfeiting the bond and secured a change of venue to the Sullivan circuit court. The State, which is represented by Samuel M. Emission, prosecuting attorney of Knox county, his law partner, Jesse P. Houghton, and J. W. Lindley, prosecutor of the Grove-Sullivan circuit, contend that the bonds forfeited should be paid. The defense is represented by Philip N. Frey, of Evansville, ex-prosecuting attorney of Vanderburgh county, James George W. Shaw, William A. Cullum and Judge S. Fritchett, all of Vincennes.

CITY OF BRAZIL HAS NO FIRE PROTECTION

Bursting of a Main During Monday's Fire Leaves It in a Bad Way—Additional Losses.

Special to the Indianapolis Journal.

BRAZIL, Ind., Jan. 26.—The bursting of the water main yesterday during the progress of most of the factories of the city. The Terre Haute electric light plant was forced to close last night for want of water, and traffic on the local and interurban street car lines has been stopped. The company has a large force of men engaged running a pipe from the plant to Pogue's run, from which it expects to secure a water supply sufficient to enable it to resume operation some time to-night. The newspaper plants are among those depending on electricity for power, and it may be they will not be able to issue a paper for a day or two. The break in the main has not yet been located, and it may be a couple of days before the city is again supplied with fire protection.

The damage done by the fire yesterday is greater than was first reported. C. H. Knight lost all his office furniture and some valuable pictures, involving a loss of \$1,200, on which he had no insurance. The Metropolitan Insurance Company, which has an office in the building, lost all its contents. The estimated loss is \$800, and there was no insurance. D. W. Brattin had several hundred dollars' worth of goods at the time of the fire, which he thought might be damaged, but when it was removed from the ruins and opened the contents were found to be unharmed.

This morning a fire started in the water tank at the central fire station, and while the department was working to put out the fire Fireman Richard Crooks fell from a ladder, a distance of thirty feet, receiving serious internal injuries.

Dr. Shoop's Rheumatic Cure

Costs Nothing if It Fails

Any honest person who suffers from Rheumatism is welcome to this offer. For years I searched everywhere to find a specific for Rheumatism. For nearly twenty years I worked to this end. At last, in Germany, my search was rewarded. I found a costly chemical that did not disappoint me as other Rheumatic prescriptions had disappointed physicians everywhere.

I do not mean that Dr. Shoop's Rheumatic Cure can turn bony joints into flesh again. That is impossible. But it will drive from the blood the poison that causes pain and swelling, and then that is the end of Rheumatism. I know this so well that I will furnish for a full month my Rheumatic Cure on trial. I cannot cure all cases within a month. It would be unreasonable to expect that. But most cases will yield within thirty days. This trial treatment will convince you that Dr. Shoop's Rheumatic Cure is a power against Rheumatism—a potent force against disease that is irresistible.

My offer is made to convince you of my faith. My faith is but the outcome of experience of actual knowledge. I know what it can do. And I know this so well that I will furnish my remedy on trial. Simply write me a postal for my book on Rheumatism. I will then arrange with a druggist in your vicinity so that you can secure six bottles of Dr. Shoop's Rheumatic Cure to make the test. You may take it a full month on trial. If it succeeds the cost to you is \$5.00. If it fails the loss is mine and mine alone. It will be left entirely to you. I mean that exactly. I don't expect a penny from you.

Write me and I will send you the book. Try my remedy for a month. If it fails the loss is mine.

Address Dr. Shoop, Box 9700, Racine, Wis.

Mild cases not chronic are often cured by one or two bottles. At all druggists.

Granted the Desired Franchise.

Special to the Indianapolis Journal.
CRAWFORDSVILLE, Ind., Jan. 26.—The city council has taken another position in the traction situation in this city in the fight of the Consolidated line to hold good its exclusive franchise for the use of the streets and the Northwestern line to get a street through the city without paying toll to the Consolidated. The Consolidated has an exclusive franchise, and the Northwestern had a franchise to come in the city, but its permit to use certain streets had not been fully granted by the council and had been laid on the shelf, where it slumbered until last night. The council last evening passed the ordinance granting the streets desired and also asked Federal Judge Baker to modify his injunction so as to permit the completion of the line in this city.

Suddenly Becomes Rich.

Special to the Indianapolis Journal.
LAFAYETTE, Ind., Jan. 26.—The Rev. L. C. Buckles, a retired Methodist minister, formerly presiding elder of the Lafayette district of the Northwest M. E. Conference, has become suddenly rich through the discovery of oil in Louisiana and the increase in value of 5,000 shares of oil stock given to him by a friend several years ago. At the time of the gift the stock was supposed to be worth very little and Mr. Buckles put it away, never expecting to touch it again. Yesterday he received word that a gusher had been struck which was flowing 2,000 barrels a day and which makes the stock held by him worth a fortune.

TESTIMONY OF EXPERTS IN BEAM MURDER CASE

Witnesses for Defense Flatly Contradict the Expert Testimony Offered by the State.

Special to the Indianapolis Journal.

HAMMOND, Ind., Jan. 26.—Conflicting expert medical testimony was introduced by the defense in the Beam murder trial to-day.

Dr. Brannon, of Crown Point, an expert on epilepsy, testified that the marks found on the girls' throat could have been made by her own hands in a chronic epileptic spasm, and he was supported by three other doctors. Experts for the State had previously testified that the marks could not have been self-inflicted, even though Martha Lawrence were an epileptic. The prisoner was put on the stand and though rigidly cross-examined by Senator Agnew, retained his composure and told a dramatic story of his relationship with the dead girl and the resulting circumstances. The defense will close to-morrow and the State expects to introduce some strong evidence in rebuttal.

Why Swamp-Root Gives Strength

Almost every one, from personal experience, knows that the effects of any kind of severe physical strain are felt, first of all, in the small of the back—in other words, in those Vital Organs, the Kidneys. This is as true in the case of the very powerful man as it is with one of less strength, and it is especially true whenever the kidneys are weak.

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease.

Swamp-Root is pleasant to take, and is used in the leading hospitals, recommended by physicians in their private practice, and is taken by doctors themselves, because they recognize in Swamp-Root the greatest and most successful remedy that science has ever been able to discover or compound.

No matter how many doctors you have tried, no matter how much money you may have spent on other medicines, you really owe it to yourself and to your family to at least give Swamp-Root a trial. Its strongest friends to-day are those who had almost given up hope of ever becoming well again.

PIKE COUNTY OFFICERS FEARFUL OF THE SNOW

No Effort Made to Arrest Willard Cat, Because the Weather Is Very Severe.

Special to the Indianapolis Journal.
PITTSBURGH, Ind., Jan. 26.—No efforts were made today by the officers of Pike county to arrest Willard Cat, leader of the participants in the Gladish Chapel crime, near Bowman, last Friday night. The snow in Pike county in many places is ten and twelve inches deep and the officers refused to venture out.

The officers know nothing of the report that Cat was seen to cross White river on a corral, and that he told the ferryman he expected to go South for his health. Sheriff Peck says he will make an effort to serve the three warrants in his possession as soon as the weather will permit. Mrs. Deidman is now thought to be out of danger.

It developed here to-day that the fourteen-year-old daughter of Elijah Ficklin was assaulted at Blackburn, Pike county, Saturday night by two coal miners. Warrants were sworn out against the alleged assailants to-day and arrests are expected to follow in the morning.

Compromise on Watchmen.

Special to the Indianapolis Journal.
LAFAYETTE, Ind., Jan. 26.—In a letter from the general authority of the L. E. & W. Railway Company, who is acting for the Big Four Company as well, the city of Lafayette was last night notified that the

two companies refused to install crossing gates at the three grade crossings in the city as demanded by the City Council five weeks ago. The communication, which was read at the meeting of the Council last night, stated that the companies would go to court before they would accede to the city's demand. They offered, however, to install several new watchmen. To avoid costly litigation, with possible defeat in the end, the City Council decided to accept the railways' offer.
